DETAILED ACTION

EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Daniel Williams on 4/25/2007.

The application has been amended as follows:

In claim 7, line 7, after module, add **--when said fixing brackets are locked to said rotation pins--**.

Allowable Subject Matter

2. Claims 7-12 and 14-16 are allowed.
3. The following is an examiner's statement of reasons for allowance: Claims 7-12 and 14-16 are allowable since certain key features of the claimed invention are not taught or fairly suggested by the prior art. In claim 7, "**wherein said light receiving module has electrodes that penetrate said light emitting module**". The prior art made of record however singularly or in combination fails to anticipate or render the above underlined limitations obvious.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue
